## Class Outline & Syllabus

### Revit Architecture Update

**Course Length:** 1 day (8 hours)

**Objective:** Students already familiar with Revit Architecture 2010 will be introduced to the new features in Revit Architecture. This course is designed to further develop the user's knowledge of Revit Architecture on the enhancements and changes made in Revit Architecture.

**Prerequisites:** It is recommended the student possesses a working knowledge of Revit Architecture 2010.

**Cost:** \$325 per day plus a \$100 fee for a manual which must be purchased for enrollment.

#### Agenda:

- Ribbon GUI
- Advanced Tool Tips
- Export to gbXML format
- Conceptual Massing & Mass Family Editor
- Form Creation
- Point Reference
- Divide & Pattern Surfaces
- Integrating the Concept (Mass Floors & Floor Area Schedules)

#### General Information

- Lunch is included.
- Class is from 8:30 a.m. to 5:00 p.m.
- Students will receive a certificate upon completion.
- After completion of an entire class, students may audit the same class for one year, if space is available in the class.
- The entire class is purchased at one time, but individual days may be attended sequentially over several months.
