We introduced the first
MULTI FUNCTION printer

We created the
HP-GL
printing central language

We were the first to embed the
spectrophotometer
in a printer

We were the first to invent
OMAS
(HP Optical Media Advance Sensor)
technology
and bring it to market

HP DesignJet
25 years reinventing design

We have **2200 patents**

We've sold more than
3 million printers

Our printers endure
EXTREME *temperatures*
+70ºC
-36ºC

We introduced the first printer with
Wi-Fi connectivity

Our printers are tested to support
6G vibration peaks
the same force that fighter pilots experience
