

HP PageWide XL 6000 Printer series

High-powered, productive monochrome and color printing with up to 30% savings in total production costs¹

WIN

Beat monochrome and color printing deadlines

- Up to 24 D/A1 pages/minute print speed, quick 25-second first page out
- Deliver mixed monochrome and color sets in 50% of the time with a consolidated workflow²
- Streamline your workflow with HP SmartStream software—native PDF management and ultra-fast processing
- Free up operators—production preflight/ finishing solutions, up to 4 rolls, dual 400-ml inks with auto-switch

EXPAND

Set the accurate, durable, color

- Set a new technical document standard with crisp lines, 2-point text, smooth grayscales, and vibrant color
- Help generate new business—reveal the value of color; print GIS maps, point-ofsale posters, and more
- HP PageWide XL pigment inks—ISO certified for long-term storage, light/ water resistance3
- Print on HP and third-party media up to 40 in (101.6 cm)—covering ISO/US technical and offset standards4

Up to 30%1 with efficient running costs

- Print monochrome technical documents at the same or lower cost than comparable LED printers⁵
- Print/scan/copy in monochrome and color with one single device—in a fully HP branded, supported solution
- Gain broad control over your printing costs and turn them to your advantage with HP SmartTracker software
- See up to 5 times lower energy consumption than comparable LED printers6

Dynamic security enabled printer. Only intended to be used with cartridges using an HP original chip. Cartridges using a non-HP chip may not work, and those that work today may not work in the future. More at: hp.com/go/learnaboutsupplies

Note: HP PageWide XL printers are not designed to use continuous ink systems. HP PageWide XL printers are designed for ink cartridges to be used until they are empty. Refilling cartridges prior to depletion might cause the printer to fail, and voids the HP ink cartridge warranty.

¹ Production costs savings based on an HP PageWide XL 6000 Printer compared with a combination of a mid-volume monochrome LED printer and a mid-volume color production printer (both under \$40,000 USD) as of April, 2017. Production costs consist of supplies and service costs, printer energy costs, and operator costs. For testing criteria, see hp.com/go/pagewidexlclaims.
2 Based on internal HP testing on the HP PageWide XL 6000 Printer compared to preparing and printing the job on two different printers (one comparable monochrome mid-volume LED printer for the monochrome pages and one color printer for the color

Based on internal HP testing on the HP PageWide XL 6000 Printer compared to preparing and printing the job on two different printers (one comparable monochrome mid-volume LEU printer for the monochrome pages and one color printer for the color pages). For testing criteria, see http://www.hp.com/go/pagewidex/Laims.

HP PageWide XL pigment inks are certified per the ISO 11798 Permanence and Durability standard, proving that prints made with HP PageWide XL printers using Original HP PageWide XL pigment inks withstand harsh exposure to light, water, abrasion, and handling, and long-term storage and heat, and remain legible in the future. For more information, see hp.com/go/printpermanence.

ISO/US technical and offset standards include American ANSI and Architectural page size standards. ISO A technical document standard, and ISO 8 offset page size standard.

Based on supplies and service costs. Monochrome technical document printing costs for comparable mid-volume ELD printers in the US and Europe in 2017 according to 1DC. Color technical document printing costs for comparable mid-volume color printers standards in the representation more than 80% of the share of mid-volume color printers standards for the market in the US and Europe in 2017 according to 1DC. For testing criteria, see hp.com/go/pagewidex/claims.

Conclusions based on internal HP testing for a specific use scenario. Comparable printers is using LED technology based on LED printers capable of printing 8 to 13 D/A1 pages per minute and which represent more than 80% of the share of mid-volume LED printers is the US and Europe in 2017 according to 1DC. To see flux 2017 for testing criteria, see hp.com/go/pagewidex/claims.

printers in the US and Europe according to IDC as of July 2017. For testing criteria, see hp.com/go/pagewidexlclaims.
